Pattern Book "C"

ILLUSTRATING

Rugs, Cut Carpets, Linoleums and Other Floor Coverings—also Tapestry and Lace Curtains, Rope Portieres, Carpet and Curtain Hardware, Etc.

C In presenting the 1913 Edition of our Pattern Book "C", we offer it, as we have rightfully claimed for previous editions of Pattern Book "C", as the most complete Catalog in the country illustrating Floor Coverings, etc., in colors.

This book is in effect for one year, until February, 1914. We do not issue a new catalog for Fall. Keep this book, the patterns will be carried for the whole year, subject to the manufacturers' ability to deliver.

On account of the change in seasons, which occurs about June 1st and December 1st, it is necessary to issue a new Price List on those dates, therefore the prices that are quoted in this book will be void after June 1st. If you do not receive a copy of the Fall Price List "C" about June 1st, and the Winter Price List "C" about December 1st, send for one, as all orders received after June 1st and December 1st, will be filled at the prices quoted in the Price List "C" issued on those dates.

Use care in making out orders. Use the order blank in the back of the book for your first order. When this is received we will send to you a book of order blanks. (The Government will not allow more than two order blanks in a Catalog.) The use of our order blanks will help greatly in filling your orders quickly and correctly.

Do not place orders for goods not illustrated or quoted herein on the same order sheet with goods selected from this Catalog. Whenever convenient see that orders for goods illustrated on pages 67 to 101, consisting of Portieres, Couch Covers, Lace Curtains, Hardware, etc., are put on a different sheet from Carpets, Rugs, Linoleums, or other Floor Coverings, as the merchandise shown on these pages are carried in a different department, and making out separate order sheets will enable your orders to be filled more quickly.

Do not Cut the Pages. When Ordering or Corresponding, Merely Give Pattern and Color Numbers and Size.

Do not order Rugs in any sizes but those quoted under the illustrations. IT IS USELESS TO ORDER SIZES NOT QUOTED, as they cannot be supplied, and this delays the filling of your order. Various grades of Rugs can now be made to order in Special Sizes. Proper notation to this effect is made on the pages illustrating these grades.

C To enable our customers to quickly find the pages on which are quoted odd sizes or extra large sizes of Rugs, we have compiled a complete index of all "room size" Rugs. See page 111 for this index; it will be found very useful and convenient.

On pages 48 to 58, Cut Carpets, particular attention is called to the notations regarding patterns that are made with Border or Stair to match.

We ask your co-operation in making this Catalog a more valuable help than it has been before. See page 110 for "Aids to Successful Carpet Department Advertising" that we are offering.

We would suggest as a further means of making this book a more valuable aid and to minimize the possibility of losing sales, that you order from us at once a 27-inch or a 36-inch Rug of the best selling fabrics. The small Rugs will show the quality of the larger sizes. They can always be sold at a profit at the end of the season.

Some Rugs are not made in small sizes. Of these Rugs we will send to you upon request, without charge, small samples showing quality.

Quality Samples of Carpets and Rugs will only show the quality of the fabric and not the pattern.

Kindly refrain from asking us to send Rugs on approval, as we shall be compelled to refuse your request.

The illustrations shown herein are as faithful reproductions as Three Color Photography can make them. You may safely urge the sale of the goods illustrated, as far as concerns the correct reproductions of the colors and designs. The qualities are also exactly as we represent them; we carry only reliable merchandise.

Only those Rugs quoted Seamless are made Seamless (woven in one piece). Special attention is called to the unusual number of lines that we are illustrating this year in Seamless Velvet and Tapestry Brussels Rugs. Attention is also called to the many lines of Rugs we carry in stock in sizes larger than 9x12. See complete index of large size Rugs on page 111.

Special attention is called to our Cut Carpet Department and our method of selling Carpets from samples. A line of Carpet Samples is the best possible investment for live merchants. See Order Blank for Samples in front of the book. See pages 105 and 106 for general information regarding our Cut Carpet Department and Prices for Sewing and Making up Carpets. See also pages 104 and 105 for Information and Instructions on the Care of Linoleums, Carpets and Rugs.

"Hartford Saxony" Rugs

THAT there is in America today a *one best* rug for "Private Homes and Public Places" is an established fact. We refer to the "Hartford Saxony" Rugs.

This has been demonstrated beyond a doubt during the past twenty years by their constant use under the most trying conditions.

The patterns of "Hartford Saxony" rugs are largely facsimile reproductions of the finest Oriental Rugs obtainable, while the fabric itself comes nearer to the foreign texture than any Loom Tufted rug.

Today many people are anxious to possess Oriental Rugs, but are prejudiced against imitations. The "Saxony" rugs, however, are so "genuine," as one expert recently remarked, "That they satisfy the most exacting."

On the following page we picture four of the most desirable patterns in this wonderful quality, but we can furnish a great many patterns in a great variety of sizes as follows:

27x36 in.....2804	27 in. x 9 ft... 8402	3x15 ft.....19107	9x15 ft.....54006
27x54 in.....4206	27 in. x 12 ft...11203	4½x7½ ft....15258	10½x12 ft....54005
36x36 in.....3855	27 in. x 15 ft...14004	6x9 ft.....27505	11¼x12 ft....54004
36x63 in.....6708	3x9 ft.....11505	8¼x10½ ft...35007	10½x13½ ft...60757
36x72 in.....7651	3x12 ft.....15306	9x12 ft.....40008	11¼x15 ft....67508

SPECIAL SIZES.—In addition to the above 20 sizes, "Hartford Saxony" Rugs can be made to order in almost any size desired, in three to six weeks' time, according to whether the pattern wanted is in process of manufacture or not, in three of the four patterns illustrated on the opposite side of this sheet or in any other of the 50 or more "Hartford Saxony" designs.

Tell us the size you want and we will give you an estimate of the cost of a Rug woven to your special order.

For nearly a century brains and hands have been manufacturing Carpets and Rugs in the New England village of Thompsonville, Conn., and the experience gained in these many years of manufacture, culminated in the production of the "Hartford Saxony" rug.

"WHAT'S IN A NAME?"

The name "Hartford Saxony" is woven in the back of every genuine "Hartford Saxony" rug as a guarantee of quality and service.

The name "Hartford Saxony" is fast becoming a household word throughout the United States when good rugs are spoken of and in presenting our new Catalog for 1913, we are pleased to announce that we can furnish these splendid Rugs to our many customers.

The "Hartford Saxony" rug quality, after being put to the most severe test, has been chosen as the floor covering for some of the newest, largest and finest hotels in New York, Chicago, and throughout the United States.

A fabric that will withstand the terrific traffic of a big city hotel and look well and wear well indefinitely is surely the quality you want in your home for everlasting satisfaction.

If you cannot make satisfactory selection from the four patterns illustrated, write for our special booklet of "Hartford Saxony" Rugs, showing a fine large assortment illustrated in natural colors.

❧ Lace Curtains ❧

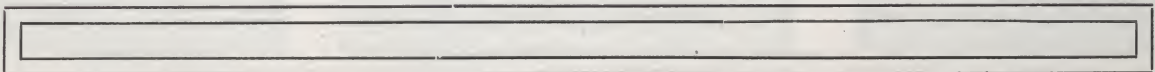

IT would be impossible to illustrate all the various lines carried in stock, but we are showing such numbers as we think will meet the requirements of the trade in general.

Should you at any time wish to see samples of anything not shown on these pages, we will be pleased to send them.

We also at all times have complete lines of curtain swisses, madrases, scrims, and flat and ruffled muslin curtains in both plain white, figured, and colored borders.

All curtains illustrated are priced by the pair and *we do not break pairs.*

Curtain nets and scrims about the yardage as marked and *we do not cut.*

WINDOW VALANCE DELUXE.

We call your attention especially to our large and growing Pillow Department. If you do not already handle Pillows, you should carry them. Pillows are in large demand, and are ever in style. We are offering the well-known "SANITARY" and "PURITAN" BRANDS of Pillows filled with our own special feather mixtures. We have thus assembled a popular priced line in which we guarantee every grade to be the best at its price on the market. Every Pillow quoted is guaranteed to be all-feather, and absolutely free from quills, dust and odor. We aim to select not only substantial, durable tickings of finest quality, but in our selections to secure the neatest, choicest and best selling patterns. All grades are thoroughly cleansed and purified, and because of the unequalled filling capacity of "SANITARY" and "PURITAN" BRAND feathers, these Pillows are plump and lastingly buoyant.

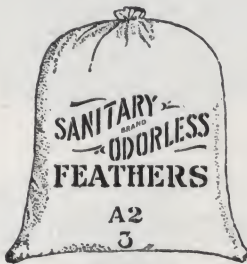

"PURITAN" BRAND FEATHER PILLOWS.

Guaranteed all feathers, odorless.

This line is made up of the most popular sizes and weights, and are good numbers to carry in stock at all times.

LINOLEUM is made of ground cork and linseed oil; it is cleanly and sanitary, and one of the most durable Floor Coverings known.

It is a desirable Floor Covering for Kitchens, Bathrooms, Halls, Offices, etc. Inlaid Linoleum is especially desirable for Stores, Restaurants and all Public Buildings. We do not, however, recommend the use of Printed Linoleum for Restaurants, Ice Cream Parlors, or similar purposes.

Linoleums are made in three widths—6 ft., and 7 ft. 6 in., and 12 ft.—and are **always quoted by the square yard**. In ordering be sure to state which width is wanted, and if you order a certain number of yards, **BE SURE TO STATE WHETHER SQUARE OR RUNNING YARDS** are required.

In estimating the number of yards required, always reckon with the width of the goods. For instance, if you wish to cover a kitchen which is ten feet wide by fourteen feet in length and wish the goods all in one piece, you must prepare to take care of the waste of 2-ft. on the side, since the goods are 12-foot wide.

We cannot always cut Linoleums without waste.

When Linoleum is ordered and no width specified, we will cut from 6 foot wide goods.

HOW TO CARE FOR LINOLEUMS

You will have no complaints on Linoleums if you heed the following:

Handle very carefully, particularly in cold weather. **Under no circumstances** attempt to unroll until the goods have stood in a warm room at least 60 hours, then unroll **cautiously**.

More important still is the laying. Remember that Linoleum **will stretch**. If you tack it down all around when first laid; it is bound to bulge, and where it bulges, it **will break**. To avoid this, put brads along the seam if in two pieces, and at the doorways, to prevent the Linoleum from being kicked up. When the cloth stretches, and the fullness or "bulge" appears, trim the outside edges. It may be necessary to do this two or three times, or until the cloth becomes "set" to the floor, then tack permanently, using $\frac{3}{4}$ inch brads.

About the cleaning. Here, too, care must be used. Very little water is necessary, and under no circumstances should be allowed to get under the Linoleum, as it will rot the cloth.

All chairs should be rubber tipped. No Linoleum will withstand the weight of a person turning around on the leg of a chair, or other severe usage. With reasonable care, Linoleum will prove a most satisfactory floor covering.

If you follow these instructions, or use care to instruct your customers, you will have no complaints on Linoleums.

SPECIAL INSTRUCTIONS FOR THE CARE OF CARPETS AND RUGS

DO NOT SWEEP Wilton, Axminster or Velvet Carpets and Rugs hard. Always sweep **WITH** the nap, not **AGAINST** it. Use a carpet sweeper, not a corn broom.

The loose particles of wool that sweep off Axminster Carpets and Rugs while new have no effect whatsoever on the wearing qualities; they really do not belong there, being the small particles of nap that fall back into the filling during the process of shearing. They will discontinue sweeping out after the carpet or rug has been in use a short time, and no alarm need be felt when they appear.

If your customer complains that a carpet or rug is moth-eaten on account of the loose nap which sweeps off, explain the conditions as outlined above, with a guarantee that no imperfection exists.

DO NOT ATTEMPT TO PULL OUT any nap, or knots, that appear above the surface of the fabric.

On body brussels or tapestry brussels, **DO NOT ATTEMPT TO PULL OUT** any loose threads appearing on the surface. These are usually caused by nails in shoes or by furniture, or casters that are broken, or by the claws of cats or dogs. Clip these loose threads with scissors.

WE WILL NOT ACCEPT THE RETURN of any carpet or rug that bears evidence of the nap or knots having been pulled out.

GENERAL INFORMATION REGARDING OUR CUT CARPETS AND LINOLEUMS

**READ CAREFULLY: IT WILL AVOID MISTAKES AND THE HOLDING OF ORDERS FOR
CORRESPONDENCE.**

Our Cut-Order Carpet Department is one of the largest in the country. The Cut-to-order Carpet business may be conducted by any merchant at a good profit. The only investment the merchant makes is for the cost of the samples.

You purchase samples of Carpets, in patterns carried in our Cut-Order Department. Samples of Axminsters, Wiltons, Velvets, Body Brussels and Tapestry Brussels are 1¼ yards long and samples of Ingrains are 1 yard long; they can be sold by you at the end of the year as

rugs at what you paid for them. We carry the goods in stock in the roll—you send us the measurements of the Carpets your customers wish and we cut and sew them ready to lay on the floor.

YOU CARRY NO STOCK; HAVE NO REMNANTS, NO INSURANCE, NO EXPENSE FOR WORKROOM.

Our workroom is equipped with the most up-to-date and efficient machinery.

GENERAL INFORMATION REGARDING OUR CUT CARPETS AND LINOLEUMS—Continued

CUTTING CARPETS WITHOUT WASTE.

All carpet patterns shown in this book will be cut to fit rooms, matched without waste, and if ordered made will be sent you ready to lay on the floor.

Cutting carpets without waste applies only to rooms of usual size and regular shapes and not to lodge rooms, churches and those containing bay windows and other offsets or those patterns marked "while stock lasts." All carpets for ordinary sized rooms will be cut about six inches longer than measurements given, to allow for shrinkage, hem and difference in measurements and for "turning under."

MATCHING BORDERS

In making up carpets with border, it is frequently necessary to use from one-half to one yard more of the border for the purpose of finishing, or "matching," (as it is sometimes called) the mitres.

WIDTHS of CARPET and BORDER VARY

When ordering rugs made of carpet and border and the width of the rug is based on the 27 in. carpet and 22½ in. border, always advise if 1½ in. more or less in the width will be satisfactory.

When figuring on Bordered Carpets or Rugs, if 27-inch wide Border is to be used, use the Yardage Table on page 108 "For 27-inch Wide Goods."

ESTIMATING YARDAGE

In giving your customer an estimate of the number of yards required for a room, never overlook the necessary allowance of 6 inches on each width, also about one yard of border for matching, as explained before. Especially should a fairly liberal allowance be made for waste in cutting bay windows and spaces of irregular shape.

Also: Do not overlook a door strip for each door. Unless otherwise instructed we always send at least one such door strip with each carpet and charge for same.

Full information as to the number of yards needed for a carpet for any size room will be found on pages 107 and 108.

TAKING MEASUREMENTS

Too much care cannot be used in taking measurements. **ALWAYS USE A YARD STICK**; tape lines are not reliable. Give the measurements in feet and inches.

If your room is of irregular shape, draw a diagram giving all projections, bay windows, doors, etc. This is particularly important in the case of bordered carpets, where an irregularity of one inch may cause difficulty. Give the extreme width and length of the room through the center, and near both ends. These extreme measures must correspond with the sum of the shorter measures along the sides. See diagram on page 107.

"SIZING."

NOTE CAREFULLY :—If you order a **CARPET** to be made up with border we will take it for granted that you intend to cover the entire floor and it will be made and shipped without being sized. If you order a **RUG** to be made from carpet and border we will assume that it is not to be tacked to the floor and will therefore size it.

The sizing of Carpet Rugs is absolutely necessary if they are to lie perfectly smooth and flat.

The sizing is a preparation of glue and water applied on the back of the rug while stretched on the floor face down, and must be allowed to remain so over night. For this reason, the making of Carpet Rugs always requires a little extra time.

OUR RULE IS TO SIZE ALL CARPET RUGS UNLESS OTHERWISE ORDERED.

When you want carpets sewed write "make" on the order. Plain sewing causes no delay. Bordered Carpets and especially Bordered Rugs, require extra time, as the border is fitted exactly (within a fraction of an inch) to the space called for by your measurements or diagram.

SEWED AND BORDERED CARPETS

Our charges for sewing carpets and making bordered carpets and rugs are moderate and less than such work costs the average carpet dealer. We do the work quickly, and above all, do it with first-class workmanship. It is the best that can be done. Every carpet is examined before shipment.

YARDAGE TABLES

For Bordered Carpets and Rugs

Figures given below are based on using 22-inch Borders. Where 27-inch Borders are to be used, then use the table on page 108 "For 27-inch Wide Goods."

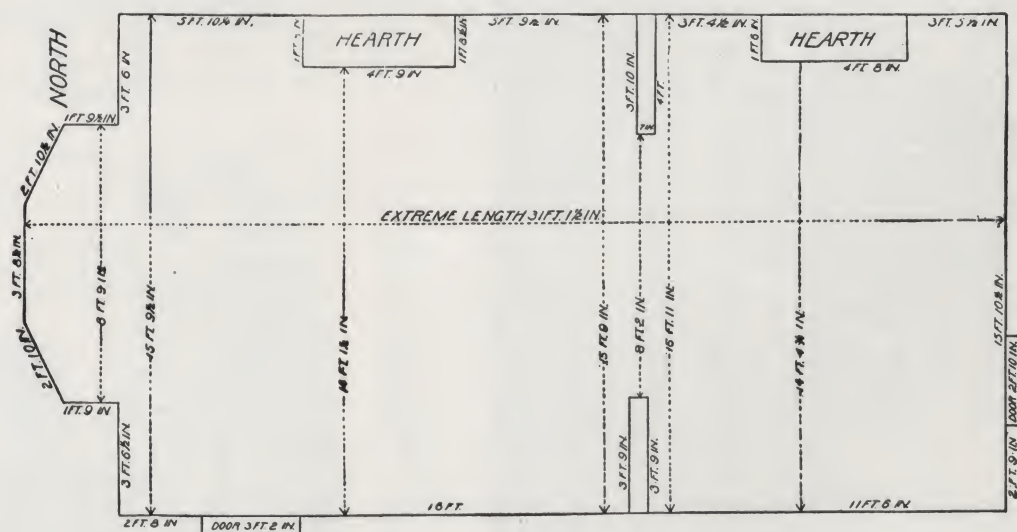

Borders cannot be matched. We always endeavor to make some slightly figure at the mitre, this often requires from $\frac{1}{2}$ to 1 yard more of border.

The figures given below include an allowance of 6 inches on each strip of Carpet. The border is always equal to the extreme outside measure of the room or space to be covered.

Model Diagram

This diagram shows how to measure for a bordered carpet, and for any other carpet where exact measurements are desirable.

Always give measurements in FEET and INCHES.

Before sending in a diagram, always prove your measures—comparing the sum of the shorter dimensions along the side with the entire width or length of the room or double room, as the case may be.

In making estimates never overlook the necessary **extra length** of six inches on each strip—as explained on pages 2 and 3. Especially should a fairly liberal allowance be made for waste in cutting for bay windows and spaces of irregular shape.

Also, do not overlook a **door strip** (about $\frac{1}{4}$ to $\frac{1}{3}$ yard) for each door. Unless otherwise instructed, we always send at least one such door strip with each carpet.

YARDAGE TABLES
